THE **Helensburgh Heritage Trust** [Photo Gallery](#) has 1,930 images in 22 different albums. To find a particular picture, use the Photo Gallery search facility.

The 21 albums — one of which spotlights the Helensburgh-born inventor of television, John Logie Baird, another steamship pioneer Henry Bell, including the 2012 bicentenary celebrations, and a third Prime Minister Andrew Bonar Law — are all on different themes; and the most recent uploads are shown at the foot of the home page.

More pictures will be most welcome. These can be emailed as jpegs to the editor, Donald Fullarton, on [dsf@btinternet.com](mailto:dsf@btinternet.com), or posted to him at Amberwood, 2A Stafford Street, Helensburgh, G84 9HU. Prints will be returned after scanning if requested, but otherwise will be added to the Trust's collection of old images.
