Helensburgh's Hinterland

A treasure trove of high quality architecture.

The town's planned grid of spectacularly leafy streets display a rich variety of architectural styles culminating in The Hill House, Charles Rennie Mackintosh's masterpiece of domestic design.

Other notable architects during the town's 200 year history include Leiper, Paterson, Thomson and Honeyman & Keppie.

Scots Baronial, Arts and Craft and Art Deco influence grand public buildings and domestic gems - all awaiting your discovery.

New Civic Centre, East Clyde Street

Domestic dwellings are exactly that and the occupants' privacy should be respected.

Leaflet designed by Iain Duncan and sponsored by Helensburgh Tree Conservation Trust and The Hill House 2016

Helensburgh's Hinterland

WALKING TIMES - Each street block measures 100 metres x 100 metres - approx. 2 mins walking time. There are 15 blocks to The Hill House at the top of the town so it would take you about 30 mins - if you don't pause, but you will ...

And afterwards? Don't miss the great range of superb restaurants and coffee shops in downtown Helensburgh where the shops are also well worth a browse.
